Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 9, 11 – 12, 16 – 19 and 23 -24 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U.S. Patent No. 5,884,200 (Yamane et al.).

With respect to claims 1, 3, 5, 11, 16, 18 note use of public data and private data Col. 8, lines 15 – 55. Note use of ID codes Col. 9, lines 61 – 63. Note memories Col. 3, lines 40 – 53.

With respect to claims 2, 4, 12 note display 9.

With respect to claim 6, such is inherent.

With respect to claim 7 and 17, 19, note claim 4 of Yamane et al.

Claims 8 and 9 are inherent

With respect to claim 18, note use of plurality of codes Col. 9, lines 61

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10, 13 – 15 and 20 - 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamane et al.

With respect to claims 10, 14, 20 - 21 would be obvious as such could read on inputting an access code.

With respect to claim 13, the ability to turn off a visual or audible indication (note that Yamane et al have both types of indicators) would be obvious to one of ordinary skill in the art.

With respect to claim 15 and 22 timed access is so old in the art no reference need be supplied. It would have been obvious to one of ordinary skill in the art to use timed access wherever it was deemed necessary.

Response to Arguments

Applicant's arguments filed 11/20/03 have been fully considered but are not deemed persuasive to any error in rejection above.

Applicant's main argument is that Yamane et al. do not teach storing telephone data from incoming and outgoing calls where the data is both public and private and are stored in the telephone. However, it appears that Yamane et al indeed teach such (see Abstract, Col. 4, lines 11 – 15, Col. 5, line 57 – Col. 6, lines 1 – 5, Col. 7, lines 21 – 25, Col. 13, lines 2 – 44 and the claims).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
